SUBJECT: About the position of Frontend Developer

Dear HR,

I am submitting my CV for consideration for the Frontend Developer position at your company. I received my bachelor's from Advanced College of Engineering and Management in Computer Engineering. I've done some research about your company and learned about your company's goal. I am convinced that my experience and qualifications will add to your company ideals.

I aim for precision and consistency in my daily individual performance, team contributions and task management as I am detail oriented. I also provide flexibility in communication and critical thinking. I am confident that I will provide a useful perspective to the current team.

Thank you for your time and attention. I hope to hear from you soon.

Sincerely,

Bikash Gyawali
